

Notes:

APPLICATION FLOWCHART

Conceptualize the user's journey through the application

- Open App
 - ◆ Loading Symbol (succulent icon) appears
 - ◆ Infographic loads in a 'chain reaction'
- Browse through plants
 - ◆ Cursor magnifies text when it scrolls over text
- When cursor is over the colored sections it explains what the color means and it's commonality within it's environment
- Pick a plant
 - ◆ Opens up new screen
 - Screens is white with low opacity so you can see the graph somewhat behind it
 - ◆ Facts about the plant
 - ◆ Photo gallery
 - ◆ Explains growing habit (Icon)
 - ◆ Plant care
- Starts browsing again
- Can rotate circle to view names easier... or circle rotates as you scroll? Like Whale Hunt?
- Scrolls to bottom of the app
- Navigation (Appear along the bottom for easy accessibility)
 - ◆ Infographic System
 - Explains how the graph works in detail
 - Gives user complete key
 - Allows user to develop skills to use the graph
 - ◆ Statement
 - Explains project
 - Gives credit to sources used
 - ◆ Search
 - Narrow down what you are looking for
 - All plants with pink blossoms
 - All plants with a cylindrical growing habit
 - All plants that require a lot of sun
 - ◆ View
 - Two different views possible
 - Overall Graph
 - Location
 - ◆ This allows you to only look at certain plants based on the location you click on the map
 - ◆ Gives more specific origin
